Valerie-

You probably already have this. But I wanted a copy for ERMS and knew that you tracked these as well.

Importance: High

Robbie-

Hope your trip to Seattle went well and that you had some good discussions about your poster.

I archive the final poster in ERMS. Is the one attached to this email the one you actually presented or were any changes made?

Kathy

Poster for review. I'll send over MRB documents for earlier abstract review.

*Best regards,
Robbie Elves*

Importance: High

Jane, Rick-

Robbie put the abstract for this poster through the MRB back in May, and we wanted you to be aware of the modifications. The abstract, as it was submitted to SRA by Robbie, is being faxed to you.

per an email from Hans-Juergen dated 11/23/01:

"This Friday afternoon, we are sending you by overnight mail (Danzas, arrival due on Monday) two small draft copies of the poster as it stands today. As you may see, I had to cut down the 'validation' bullet point in the Discussion due to space limitations, but I think I still captured the idea.

Since we went beyond the scope of the abstract by including the results obtained by weighting the smoke chemistry data of the BRANDS study, we would appreciate a review of the poster by whoever is necessary and available on this admittedly short-notice.

For the three-minute platform presentation, I plan to limit myself to the title page including authors and affiliations, the formulas for the calculation, the cancer risk graph with the brands, and the summary."

Folks are leaving for this meeting on **Friday, 11/30**. Please let us know if you have any issues. Thank you.

Gerry
